FLYASH BRICKS

- ✓ Uniform Sized 230 x 110 x 75mm Fly Ash bricks will save mortar and plastering cost by 30 to 40% on average.
- ✓ Flyash bricks are manufactured and tested as per IS 12894-2002. Compressive strength 9 N/mm² and above.
- ✓ High durable with water absorption is ranges between 6-12%.
- ✓ No toxicity, Since flyash changes into non-toxic product when mimxed with lime.
- ✓ Thermal conductivity is 0.90-1.05 W/m² & do not absorb heat, reflects it and gives maximum light reflection.
- ✓ Flyash bricks are good fire rating and has no problems of Vermin attacks
- ✓ High compressive strength eliminates breakages & wastages during transport and handling.
- ✓ Due to its comparable density, do not cause any extra load on structures and suitable for earthquake loads.
